

Report on the evacuation trip to Kharkiv and Donetsk regions

5 — 9 June
2024

61

animals
were evacuated

Thanks to your support, UAnimals team went on an evacuation trip to the Donetsk and the Kharkiv regions. We evacuated 61 animals from danger: 14 dogs, 17 puppies and 30 cats. Eight animals were handed over to their families immediately.

1,982 USD

spent during
the trip

A total of 258 people joined this evacuation fundraiser. Thanks to this support, we were able to raise 2,178 USD

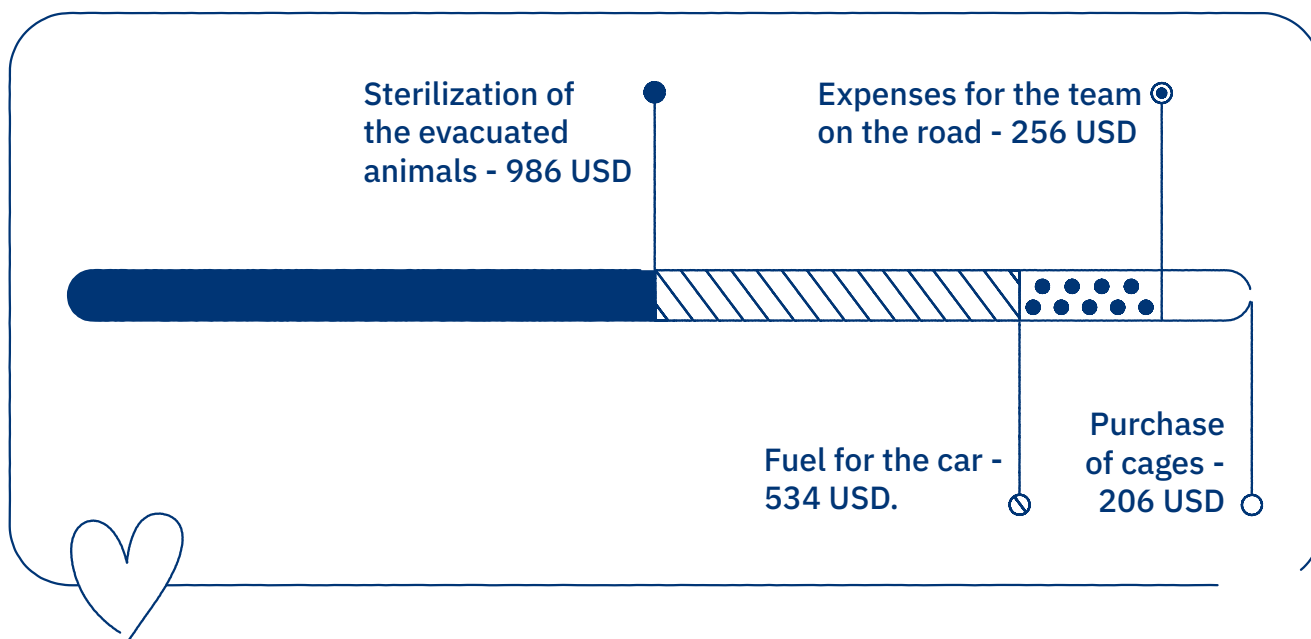

The money that remained will be spent on the next evacuation trip to the Donetsk region.

UAnimals

What and how much we spent on our trip:

During the trip, we also picked up a dog from “AldenVet” veterinary clinic in Kyiv, which was evacuated from the Sumy region by UAnimals volunteers Mariia Holovina and Andrii Zhdanov. They managed to find a family for the animal in Kharkiv, so we transported it there.

From the Kharkiv region, at the request of “Zoopatrol” team, we transported two evacuated dogs to their new owners in the Khmelnytskyi region.

The dogs we brought from Kharkiv and handed over to a family in the Khmelnytskyi region

Where were the animals transported to?

As always, most of the requests for rescue of cats and dogs come from the soldiers. We handed over the evacuated animals to the Kyiv shelter “Mala Dzyga”, the Gostomel shelter, the “Zoosimya” shelter in the village of Pavlysh, the Poltava shelter “Mokri Nosy”, the Khmelnytsky shelter “Ecozakhyst. Starokostiantyniv” shelter, as well as to volunteer Tetyana Voyna from Kyiv and volunteers from the village of Liubivshchyna in the Poltava region.

The dog Bandit from Toretsk survived Russia's attack

The gray cat is finally home and happy

During the trip, 390 kilograms of animal food were handed over from the shelter "Ecoprotection. Starokonstantinov"

The dog Tosha came to the family in the Chernivtsi region

Saving a dog with amazing eyes

The dog Romel with his rescuer in Druzhkivka

Romel at home in the Lviv region

The dog Romel was rescued from the battlefield by military ambulance paramedics. The animal remained under the care of a military doctor from Druzhkivka. The man dreamed of bringing his pet to his family in the Lviv region, and we helped to make this dream come true. Romel has one peculiar feature as his eyes are of different colors, and it is impossible not to fall in love with him!

The dog Tosha and his friend the cat are finally home

A large gray cat and a scared dog were handed over to our evacuation team by a soldier from Druzhkivka. The dog was born to our defenders in a trench in Kupyansk. However, now the animals will live in the Chernivtsi region with their rescuer's family and wait for his return.

His sidekick, a gray cat, is very excited about the trip
