

# Report on the Fundraiser for Firewood for Shelters

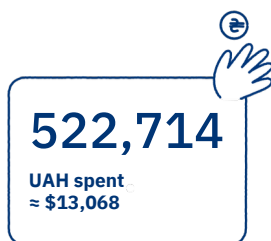

More than 4,000 donors contributed to the fundraiser.

Thanks to the support of our donors, we raised more than planned, which allowed us to purchase firewood for 12 shelters.

We supplied 12 shelters with firewood, ensuring warmth throughout the winter for nearly 2,000 animals living there.

With these funds, we purchased and delivered 230 cubic meters of firewood, which is nearly 147,000 kilograms (~324,000 pounds)!

For heating in winter time, a shelter needs between 2 and 19 tons of firewood, depending on its size and the number of animals living there.

This winter, UAnimals has already helped individual shelters with firewood purchases as part of the Great Winter Fundraiser. However, the demand was overwhelming, so we decided to help even more, so 11 shelters stay warm until the end of the winter. These shelters are either located in the frontline regions or provide help to animals evacuated from combat areas.

## We provided firewood to the following shelters:

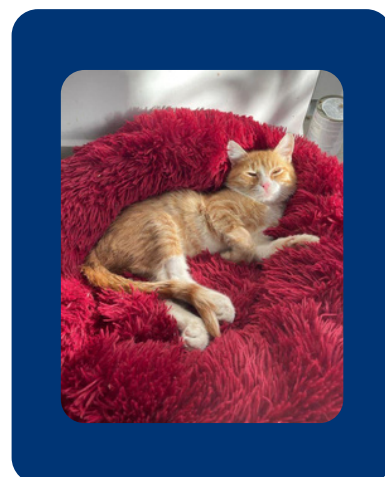

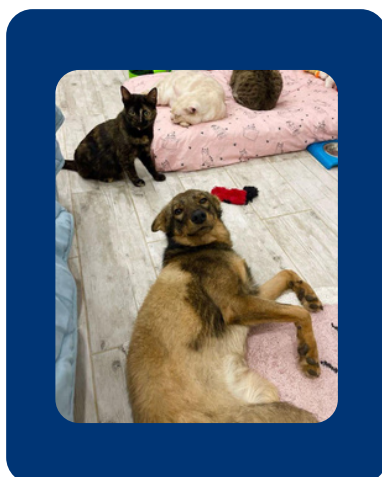

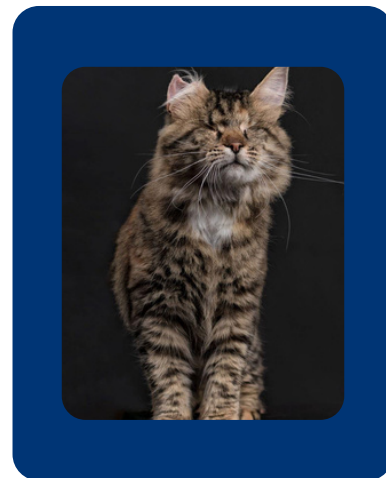

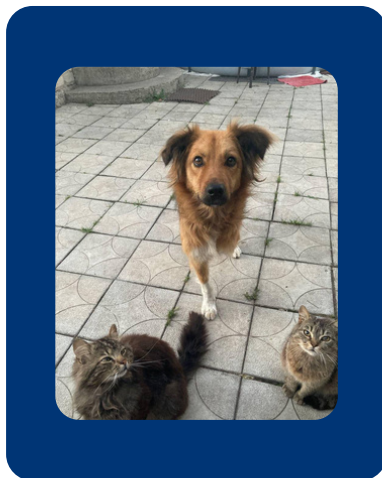

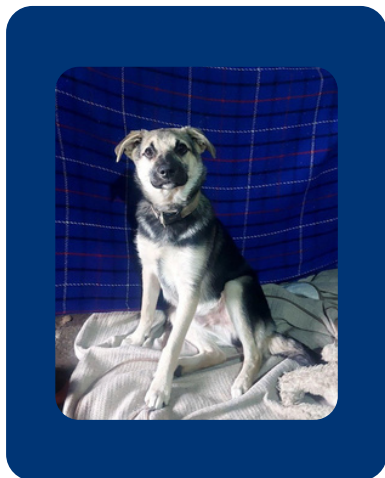

- \* To Human Rights Initiative's shelter in the Donetsk region we delivered 30 cubic meters of firewood (≈20 tons) to keep 46 dogs and 58 cats warm. The total cost is 77,000 UAH (≈ \$1,925).
