The housing issue for dogs has been officially resolved. We purchased **47 new kennels** for dogs in two shelters — warm, sturdy, and made with love ❤️ Now every dog will have a roof over their head, a place to rest and feel comfortable, where they can hide from rain, snow, or wind. This was made possible thanks to you!

The kennels were received by the following shelters:

- Another Dimension (Zelenodolsk, the Dnipropetrovsk region) — 28 kennels amounting to **UAH 98,399.84 (≈\$2,334)** were purchased. It houses both stray animals and dogs evacuated from frontline villages and towns.
- Druzi Space (Kramatorsk, the Donetsk region) — 19 kennels amounting to **UAH 115,995 (≈\$2,752)** were purchased. The shelter operates in a town located just 20 kilometers from the front line. They rescue both local animals and those brought in from under fire.

Let's show you who has settled in these kennels.

This 4-month-old dog arrived at Druzi Space in terrible condition from Siversk in the Donetsk region. The dog's skin was severely damaged. After treatment and care from volunteers, the dog began to recover. Today, she is completely different: healthy, calm, gentle, and ready for a new life ❤️

**Roma, Lesia, and Chapa** lived in Fedorivka in the Kherson region. Instead of kennels, they had only a pile of bricks in two rows and a piece of plywood on top. Instead of collars, they had ropes that cut into their necks, leaving deep scars. And there were empty bowls next to them. These dogs were evacuated from Fedorivka to Another Dimension shelter. Now they are completely different: relaxed, well-groomed, and trusting of people again.

**We are grateful to everyone who contributed to this UAnimals fundraiser. Together, we provide animals with what they need and give them a chance at a peaceful life.**
