1,259 donors supported the fundraising campaign

955
animals
received help

UAH 310,907 (≈ \$7,300) was spent on assistance. The remaining **UAH 100.14 (≈ \$2)** will be used for the next aid project

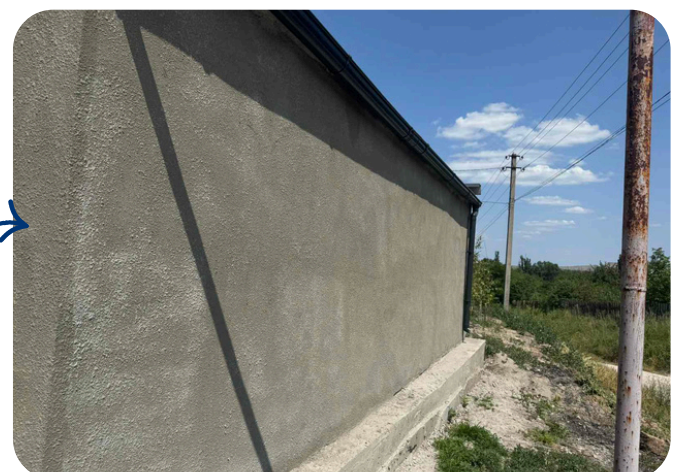

Forecasters warn that the stretch of warm, sunny days will not last long – colder weather is on the way. But the animals in the shelters you supported with your donations are not afraid of the frost.

😊 We transferred **UAH 110,000 (≈ \$2,600)** to insulate the quarantine facility and build a ventilation system at the Favorite Animals shelter in the Dnipropetrovsk region.

This means that animals newly arriving at the shelter will undergo quarantine in warmth, without dampness, and in conditions that help them recover faster.

before

after

😊 We paid for the insulation and roof repairs of the kennels where animals live at the Bakhmut Protection Society Lada shelter in the Dnipropetrovsk region. **UAH 10,000 (≈ \$230)** was spent on this.

😊 We transferred **UAH 152,000 (≈ \$3,500)** to the Dimpets shelter in Sumy.

The shelter insulated the facade to prevent heat loss and make the interior truly warm and comfortable. They also insulated the floor, which had previously been cold – something especially important for cats.

😊 An additional **UAH 38,907 (~ \$900)** was allocated to replace part of the roof at the “Fatum” shelter in the Mykolaiv region.

After explosions, microcracks appeared in the roof, allowing rain and snow to seep inside. Part of the roof was replaced, making the помещения drier, warmer, and safer.

This winter, the animals will face the cold in warmth. Thank you for helping them prepare in advance.

These joyful dogs are calling out:
