

# Report on the fundraising campaign for evacuating animals from frontline areas

₺  
**UAH 572,746.40**  
(≈ \$15,000)  
raised

The fundraiser was supported by **2,537** donors

662  
animals were assisted

**UAH 572,362 (≈ \$15,000)** was spent on assistance. The remaining **UAH 383.40 (≈ \$10)** will be used for the next evacuation fundraising campaign

**Of course, dear, it was arranged. Waiting was dangerous. And to make sure this trip actually happened, we organized this fundraising campaign. The raised funds were used to pay for fuel and repairs of evacuation vehicles, purchase crates, pads, straw, and other supplies, cover the treatment of injured and sick animals, and provide working conditions for our team.**

Friends, we invite you to scroll through the report 

 Your donations to this fundraising campaign made it possible for us to complete 16 evacuation missions in the Donetsk, Kharkiv, and Dnipropetrovsk regions and evacuate 662 animals. Among them were cats and dogs, goats, rabbits, guinea pigs, and otters.

 Of these, three missions were carried out by volunteers using their own vehicles, and we reimbursed them for fuel expenses. A total of **UAH 20,339** (**≈ \$550**) was spent on this.

🚚 As part of evacuation missions and separate trips, we transported 111 previously evacuated animals to safer regions of Ukraine. They were receiving treatment at veterinary clinics in Kyiv and Dnipro or staying in temporary foster care. **UAH 74,506.10 (≈ \$2,000)** was spent on transportation.

🏥 We also covered inpatient care, examinations, vaccinations, sterilizations, tests for viral diseases, parasite treatments, surgical procedures, post-operative care, and other veterinary services for 34 animals evacuated during these missions from the Donetsk and Kharkiv regions. **UAH 183,855.50 (≈ \$5,000)** was spent on treatment.

**Our most important value is people. Because it is thanks to kind people that we can rescue animals from frontline areas.**

We sincerely thank everyone who supported this fundraising campaign. Very soon, we will set off on the next missions. The war continues, and help is needed constantly. Together, we can save as many animals as possible ❤️
