

# Report on Fundraiser for the construction of a roof at Homeless world rehabilitation center

₳  
**UAH 392,217.72**  
(≈\$9,451)  
raised

**1 176** donors supported the fundraiser

706  
animals received  
our help

All funds raised were used to provide assistance

**Thanks to the support of caring people, the animal rescue, evacuation, and rehabilitation center, «Homeless world», has installed a roof over 18 dog kennels. These kennels are home to animals with very difficult pasts.**

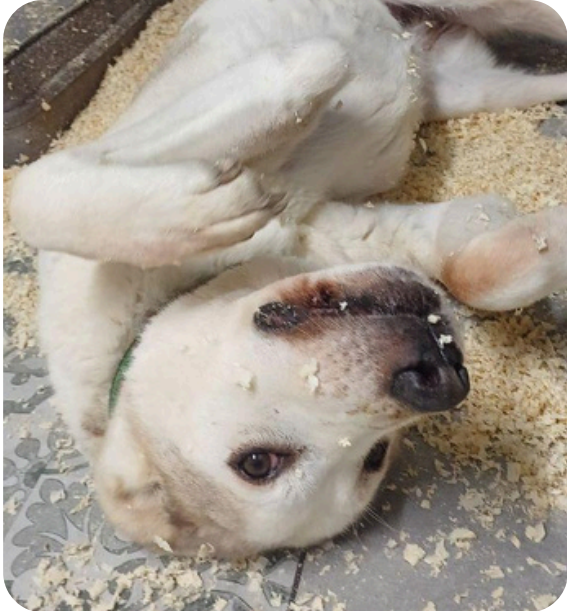

**The dog named Rybka** was found terribly underweight at a fish farm 🙄

**Akita** was left completely alone under shelling in Chornobaivka.

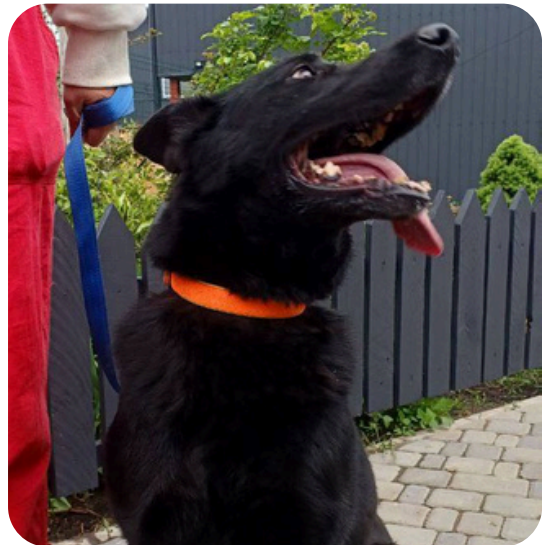

**Husky Stremka** ended up on the street and survived as best he could, defending himself from both people and other dogs.

**Alabai Gerda** was abandoned by her guardians during the war, and other people wanted to put the animal down.

The black dog named **German** was also left behind when the war began. They didn't even untie him, leaving him to survive chained up amid shelling and explosions for nearly a month.

When they found the elderly and blind **Admiral**, he was standing motionless right in the middle of the street in the rain. He likely lost his sight due to the fighting 💔

Thanks to your donations, we were able to purchase all the necessary materials to build a roof over the enclosures. Specifically, we purchased:

- wooden boards for the roof structure;
- construction beams of various sizes for the frame;
- perforated metal brackets and fasteners to reinforce the structure;
- wood screws for installation;
- a fire- and bio-resistant treatment for the wood to extend its lifespan and protect it from moisture and pests;
- a super-diffusion roofing membrane that protects the roof from moisture;
- insulation for additional protection against the cold.

Homeless world center spent **UAH 392,217.72 (~\$9,451)** on this project.

**Friends, thank you for your compassion and for helping us care for these animals!**
