

# Report on Fundraiser for protection against parasites for 2000 dogs and cats from the frontline areas

**UAH 240,705**  
(≈\$5,800)  
raised

**1 176** donors supported the fundraiser

**2 000**  
animals received  
our help

We spent **UAH 240,677** (≈\$5,799). The remaining **UAH 28** will be put towards the next fundraiser

**We are sure that you treat your pets for parasites on time, so they are not at risk of piroplasmiasis, Lyme disease, ehrlichiosis, dermatitis, and other unpleasant conditions.**

**Thanks to your donations, the same care has become possible for those who do not have a home. You have helped to care for dogs and cats in officially registered shelters in the Donetsk, Dnipropetrovsk, Kherson, Zaporizhzhia, Kharkiv, and Sumy regions.**

**We accepted requests for assistance through our chatbot – non-governmental organizations and charitable foundations that care for animals submitted requests, and after verification, we provided them with veterinary medicines.**

The funds raised were used to purchase:

❤️🩹 329 packs of antiparasitic tablets for cats (3 tablets per pack);

❤️🩹 334 packs for dogs (4 tablets per pack).

We would like to thank everyone who contributed to the fundraiser. Thanks to you, thousands of rescued animals in shelters received the protection from parasites they need 🧡
