Thanks to your donations, we were able to create an essential space for helping animals — a veterinary quarantine trailer for the Liha Zakhystu Tvaryn Shans shelter in Pavlohrad, Dnipropetrovsk region.

In total, we spent **UAH 253,000 (≈\$6,096)** on the project.

This is an insulated modular trailer measuring 5 × 2.4 meters (12 m²), with a durable, moisture-resistant frame. The walls and roof are insulated, allowing for a comfortable indoor temperature year-round.

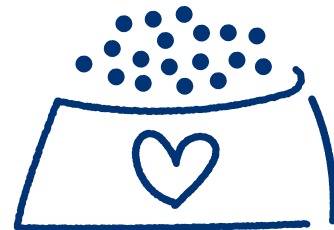

Inside, it features practical finishing, with linoleum flooring for easy cleaning and disinfection. The unit is equipped with metal-plastic windows and doors, electricity, lighting, ventilation, and air conditioning.

Here, animals can be examined, vaccinated, treated, and, if necessary, they can undergo surgeries. Afterward, they stay in a separate quarantine area, away from others, which helps them recover faster without the risk of spreading infections.

With the remaining funds, we purchased 38 bags of dog food of 10 kg each. It cost us **UAH 16,530 (~\$398)**.

Friends, all of this is possible thanks to you.
Thank you for helping us save animals together 🧡
